Museum members should write membership number on check

Special Note: Dinosaur discussion presented by Gary Gray
at 2:00 pm June 8 at Nancy Sand's home

Join ULLRs on Friday, June 20, at the Science Museum of Minnesota to see and learn about a different breed of dinosaurs. Ultimate Dinosaurs is a fascinating study of species you may not have met before. Our visit will include the "Dinosaurs Alive!" film in the Omnitheater where you'll follow some of the world's most accomplished paleontologists as they uncover evidence that the descendants of dinosaurs still walk (or fly!) among us.

ULLR Gary Gray will lead us on a personalized tour of the Museum's Dinosaurs and Fossils Gallery and the Ultimate Dinosaurs exhibit.

Meet at 12:50 p.m. at the Science Museum for the tours and film. Cost is \$16.00 per person or \$9.00 for Museum members. This includes Museum general admission, the film, and the Ultimate Dinosaurs Exhibit. We will have dinner in the area following our Museum visit.

Send checks payable to Nancy Sand by June 1, 2014, 15001 Burnhaven Drive #108, Burnsville, MN 55306. Museum members should write their membership number on check.

Special note: To prepare you for the Science Museum visit, there will be a special dinosaur discussion presented by Gary Gray at 2:00 p.m. June 8 at Nancy Sand's home. For more information about this discussion, contact Gary Gray.
